## New Report: Employee Salary Notice

APTAWEB-10877

HARRIS School Solutions

## Introduction

The Employee Salary Notice is a new report which can be found on the Manage Employees screen under the More Button. This report will show employee salary and fringe benefit information — deductions for which the employer is paying all or part — along with leave accruals. Employee salary notices are sent to the job queue for processing and will automatically be published to the ESS, if that module is enabled.

## **General Information**

- 1. Employee information name, address, site/department, birth/hire dates, Federal/State withholding will display on the report, as well as all approved jobs, and employer-side deductions.
- 2. All positions, all job types, all designations, including supplemental jobs will be reported.
- 3. Employee salary notices will automatically be pushed to the ESS if that module is enabled and will be printed to a PDF file.
- 4. The report will be sent to the job queue and could take 45 minutes to an hour to process about 400 employee salary notices due to the large number of calculations being performed for example, employer deductions calculated for all payroll periods in a fiscal year.
- 5. When the salary notices are generated, they will be saved into the folder that is set up in your browser for downloads.

## Process

Navigate to *HR, Payroll & ESS > Manage Employees* and select one employee, multiple employees, or all employees. Click on the **More** button and select **Employee Salary Notices**.
